Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 22 February 2005.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-23 are rejected under 35 U.S.C. 103(a) as being unpatentable over US Patent 4,281,752 to Runk .

Runk discloses a spearhead assembly shown specifically in figure 3, which comprises everything, more specifically, the spearhead assembly comprises a cylindrical 43 having an outer surface composed of contiguous portion shown in general near reference numeral K, a slot formed in the base and opening onto said plurality of surface portions to pivotly receive the spearpoint subassembly 52. The spearpoint 52 is also pivoted about pivot 54 in a direction toward one of angularly spaced positions perpendicular to the plane of an adjacent surface portion 46. The claimed invention differs from Runk in that instead of the spearpoint spring bias means being located inside of the spearpoint cylindrical body 50, the claimed invention chooses to install the spring bias means around the neck portion of the spear point body so as urge the spearpoint into pivot movement and holds the spearpoint in one of the plurality of angular spaced positions. Such modification, in the examiner's view fails to render a patentable distinction over Runk, since it has been held that a limitation of the claimed combination which present no novel or unexpected result over a similar feature used in the prior art

references, and solved no stated problem, was merely an obvious matter of design choice within the skill of the art. [In re Kuhle, 526 F2d 523; 188 USPQ 7 (CCPA 1975). In re Gazda, 42 CCPA 770; 219 F2d 449; 104 USPQ 400 (1955)]. Furthermore :

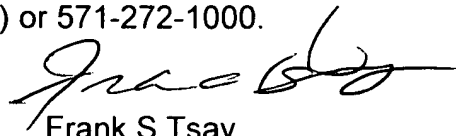

- The claimed plate retaining means fails to distinguish from detent 57 of Runk which serves to retain the spring means.
- The first surface is clearly shown in Fig. 2 near reference numeral 42 which lies in a plane substantially perpendicular to the longitudinal axis of the base.
- The second surface and the third surface fail to distinguish from the plurality of tapered surfaces at the end portion of spearhead base.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Frank S. Tsay whose telephone number is (571) 272-7038. The examiner can normally be reached on Monday thru Friday, 7:30am-5:00 pm, 2nd Friday off.
